

**population Projection for the time period 2010 - 2030**

| <b>Year</b> | <b>Population Projection</b> |
|-------------|------------------------------|
| 2010        | 6,153,359                    |
| 2011        | 6,328,716                    |
| 2012        | 6,499,119                    |
| 2013        | 6,658,925                    |
| 2014        | 6,807,835                    |
| 2015        | 6,971,656                    |
| 2016        | 7,133,294                    |
| 2017        | 7,289,783                    |
| 2018        | 7,440,785                    |
| 2019        | 7,586,859                    |
| 2020        | 7,737,109                    |
| 2021        | 7,885,069                    |
| 2022        | 8,030,720                    |
| 2023        | 8,174,268                    |
| 2024        | 8,315,982                    |
| 2025        | 8,456,140                    |
| 2026        | 8,594,721                    |
| 2027        | 8,731,549                    |
| 2028        | 8,867,951                    |
| 2029        | 9,001,860                    |
| 2030        | 9,134,464                    |
