Department of Statistics under Law No. 12 of 2012

## 1. Contents:

Survey Questionnaire

## 2- Time

### 2-1 reference period

Data is collected in 1/3 – 30/11/2020

### 2-2 date of dissemination

Data is disseminated in 1/4 - 30/5/2022

### 2-3 commitment to date of dissemination

30/5/2022

### 2-4 periodicity

Annually

### 2-5 availability of time series

There is a time series of annual surveys from 1995–2020.

## 3- Accuracy

### 3-1 overall accuracy

Very high

### 3-2 sources of inaccuracy

Non-preview errors.

### 3-3 available accuracy measures

Descriptive accuracy measures.

## 4- Comparability

### 4-1 comparability over time (ability to compare data with previously published data)

The data is comparable with previously published data, due to using the same methodology and application of international standards.

### 4-2 comparability with other statistics (ability to compare data with figures in other surveys, and with other countries)

The data is comparable with other statistics, which use the same international standards and classifications.

## 5- Data accessibility

### 5-1 publication formats (how can the user access the data, e.g. DOS website, paper copies, etc...)

The data is published in printed and electronic format on DOS website.
