

## Quality of Declaration

### Name (please insert survey name)

Industrial Production Index

### Content

### Time

### Accuracy

### Comparability

### Data Accessibility

### Sector (survey sector: social, economic, agricultural, etc.)

Economic (collecting Industrial Production Index to calculate the IPI)

### Directorate and contact person (the directorate conducting the survey and the responsible person, and contact details)

Directorate of National Accounts – Dergham Faiz Obeidat – Tel. 5300700, ext. 1421-dergam@dos.gov.jo

### Purpose and historical reference

#### Purpose (please write down the survey purposes)

The survey aims to achieve the following:

1. Knowing the trends of the productive movement of the activity of industrial producers.
2. An economic indicator that monitors the decisive change in the production quantities of industrial producers, as the government provides this figure in the treatment and formulation of economic policies and plans. Indices are considered as an indicator to measure the impact of economic and political decisions on the economic situation
3. The industrial production index is an indicator to know the status of the existing extractive and manufacturing industries in terms of the quantities produced IPPI is an indicator to the condition of the existing manufacturing and industrial facilities in terms of price variance.

#### Historical reference (please indicate the year the survey started)

IPI is calculated using 2010 as a base year

#### Users and Applications:

Users: economic experts and researchers, the Central Bank, Ministry of Finance, private sector

Applications: The industrial production index is used to monitor changes in the volume of production locally and which are dealt with in the markets, and what follows from standing on price trends, produced quantities and market conditions.

#### Source (please write all data resources)

Data is collected by means of a monthly survey

#### Authorized organization to collect and publish data

Department of Statistics, as per law no. 12/2012.

## 1. Contents

### 1-1 Content description

This survey presents the monthly and cumulative index of industrial production quantities.

This survey also presents the monthly and cumulative change percentages of industrial

production quantities. Data is also published on the level of economic activity.

#### **1-2 statistical definitions**

The index of industrial production quantities is an abstract number that measures the amount of change in the quantities of industrial production in a period called the comparison period in relation to another period called the base period.

#### **1-3 variables**

Produced Quantities of Goods

#### **1-4 Classifications (basis of details in the tables)**

Tables are based upon 2010

## **2- Time**

#### **2-1 reference period (during which the data is collected)**

Data is collected monthly.

#### **2-2 date of dissemination**

Data is disseminated 38-44 days after the end of the reference month

#### **2-3 commitment to date of dissemination**

Available

#### **2-4 periodicity**

Monthly

#### **2-5 availability of time series (mention available time series of this survey)**

There is a time series of annual surveys from 2010 – 2021.

## **3- Accuracy**

#### **3-1 overall accuracy (very high if all items in checklist are implemented, high if two thirds are implemented, medium if less than half the items are implemented)**

Very high

#### **3-2 sources of inaccuracy**

Sample

#### **3-3 available accuracy measures**

Descriptive accuracy measures

## **4- Comparability**

#### **4-1 comparability over time (ability to compare data with previously published data)**

The data is comparable with previously published data, due to using the same methodology in accordance with international standards.

#### **4-2 comparability with other statistics (ability to compare data with figures in other surveys, and with other countries)**

The data is comparable with other statistics, which use the same international standards for defining and classifying indices.

## **5- data accessibility**

#### **5-1 publication formats (how can the user access the data, e.g. DOS website, paper copies, etc..)**

The data is published in printed and electronic format on DOS website:

[http://www.dos.gov.jo/dos\\_home\\_a/main/economic/price\\_num](http://www.dos.gov.jo/dos_home_a/main/economic/price_num)
